

# What makes Mobile Tornado PTTToC superior?

**With over 20 years experience** in critical communications, you can be sure that our technology is tried, tested and proven.

## Productivity

- Instantly communicate with individuals and groups of up to 5000.
- Platform can communicate instantly with up to 127 groups, with up to 1,000 individuals in each group.
- Only dispatch console in the world to support up to 64 simultaneous PTTToC radio group sessions.

## Speed and reliability

- Best in class, seamless switching between cellular 2G, 3G, 4G and 5G networks and broadband.
- Exceptional latency of under one second means there is no difference between a private PTT call or a radio group of 1000.
- PTTToC carrier-grade system availability is 99.999%.
- Voice transmission of less than 0.5 seconds.
